

M4 Message Sign

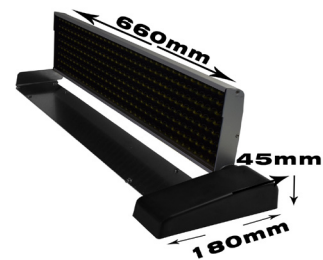

Designed for a full range of applications, the M4 stays hidden flat until needed, enabling you to transform an ordinary vehicle into a law enforcement, police, or emergency services vehicle at the press of a button.

Able to store 99 messages, the M4 also supports graphics and foreign characters, with a user definable/editable character set.

The M4 is durable and built to last, suitable for use on a wide variety of vehicles both internally and externally mounted and is available in Flip up or Flip down models.

Fully compliant with EMC REG 10.04

Dimensions
