

## M180S SERIES

### R65 180° Intersection LED

The M180S directional LEDs are bright and versatile 180° warning lights, with take down and puddle light combinations that are suited to a wide variety of applications. Their low profile, narrow shape, and multiple mounting options (surface, edge, self-adhesive and permanent) provide superior flexibility when positioning the lights for optimum warning capability. Models offer multiple flash patterns and multiple units can be synchronised to operate either simultaneously or alternately with each other.

#### Dimensions

#### Models

PART NO.	COLOURS	VDC	AMPS
M180S-A	Amber	12-24	1.8
